

10 Tips for Recovering Bad Landings

It's probably a fair bet that everyone who has flown an airplane has made a bad landing from time to time. Murphy's Law suggests that when we do so, it will always be embarrassing because a lot of people will be watching. So, let's look at some causes -- and some remedies -- to lessen the possibility. Bring your "war stories" and we'll all have a laugh at our occasional, but very human lapses.

Directions: From TX 199 (Jacksboro Hwy) go WEST 3.3 miles on Confederate Park Road. Turn RIGHT on Silver Creek Azle Road. Airport entrance is 1/4 mile on RIGHT. Follow signs.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
